Dave Eggers curates *Lots of Things Like This*

Kurt Vonnegut, *Trout's Tomb*, Courtesy Dave Eggers

Author and *McSweeney's* founder Dave Eggers curates this show of whip-smart, witty one-liners, selected for their playful mix of text and image. The list of contributors behind the 128 works on display — including Basquiat, Leonard Cohen, R. Crumb, Henry Darger, and Kenneth Koch — reads like the wall text for a modern-day *School of Athens* populated by snarky geniuses. Marcel Duchamp's mustached Mona Lisa, *LHOOQ* (meaning, "She has a nice ass," when the letters are pronounced in French), is displayed alongside an original lithograph by Kurt Vonnegut and Bulgarian Nedko Solakov's untitled ink-drawing series inviting you to recline on a fully functioning massage table.
