The 444 program takes place at Apex Art every summer, bringing the season to a close. We ask four dealers/curators to each suggest an artist who has not had a solo show in New York or been seen substantially outside the studio for a one-week, one-person exhibition with an opening reception. In keeping with our practice of asking individuals to assist us in making programming choices, we invite people who by the nature of their position are exposed to new work by artists on a regular basis.

Hours: Tuesday - Saturday, 11-6 pm
